

## Weekday Learning Center Registration Information

### Preschool Prep

Preschool Prep is designed for children ages 12 months (by September 1st of the current school year) through 2 years of age.

The program is centered around the development and growth of the child in all areas including social, physical, and spiritual. The curriculum is theme centered with academics intertwined. Children have a rest period after lunch each day.

### Preschool

Our Preschool classes are for 3 and 4 year old children. A Pre-K 5 class is offered for children needing an extra year for confidence building.

The program focuses on fine and gross motor skill development as well as academics. The children are encouraged to learn through hands-on projects that target the development of necessary skills required for beginning reading and writing. Social, emotional, and spiritual developments are also taught.
